To Whom It May Concern:

Mrs. Kathy Fenlon is knowledgeable, hard-working, invaluable and dependable with her responsibilities and professional work ethic. She is excellent with children, technology, and has a passion to help all succeed. There have been few individuals I have come in contact with during my 15+ years in education that I can speak this highly of. These are just a few traits Mrs. Fenlon has displayed in the short time I have known her.

As the Assistant Principal, I have had the enjoyment of getting to know Kathy in a middle school setting as a substitute teacher, PTO member, parent, and more importantly a top notch teacher. This current school year she has lead district workshops on the integration of technology and math. She has come to our school to help with issues that some of our teachers have encountered. She will complete any task that is given to her with great pride. Her energy and work ethic would create an atmosphere that would generate greatness within any surrounding she is attached too.

Mrs. Fenlon built an excellent rapport with staff and students that was professional, collegial and respectful. She also gets to know each student she comes in contact with. This was done by accepting each student and staff for whom they are as well as what there strengths are. She focuses on each child's needs, analyzes it and helps produce a better end result. Within a classroom setting she has a great ability to present similar materials in different ways thus optimizing each child's performance. She will be a difficult member of our school and district community to replace.

Please accept this absolute endorsement of Mrs. Fenlon and her ability to produce self sufficient learners. If you have any questions about this fine educator please feel free to call me at (978) 374-5782.

Sincerely,
